

SKIS ECO COUNCIL

WATER COOLERS

PRESENTLY THE STUDENTS DO NOT USE THE SCHOOL WATER COOLERS DUE TO THE FOLLOWING RUMOURS:

- "THE MOUTHPIECE IS RUSTY"-A YEAR 8
- "IT HAS *NEVER* BEEN CLEANED"-A YEAR 10
- "IT ALWAYS LEAKS"-A YEAR 9
- "THE WATER IS FILTERED FROM **POO** WATER"- A YEAR 7

Current at SKIS (4 units) Stainless steel water cooler	Option 1 Le Gray model	Option 2 Slimmer II model
<ul style="list-style-type: none"> - Cold & room temperature water - With direct drink function - Refill water bottles <p><u>Note:</u> Hot water function was disabled for safety purposes. Hot water function is available at staffrooms and Admin Office pantry.</p>	<ul style="list-style-type: none"> - Hot, Cold & room temperature water - Without direct drink function - Refill water bottles ONLY 	<ul style="list-style-type: none"> - Hot & Cold water - Without direct drink function - Refill water bottles ONLY <p><u>Propose Option 2</u> To disable Hot water function and adjust to room temperature for safety purposes.</p>

TIMER TAPS

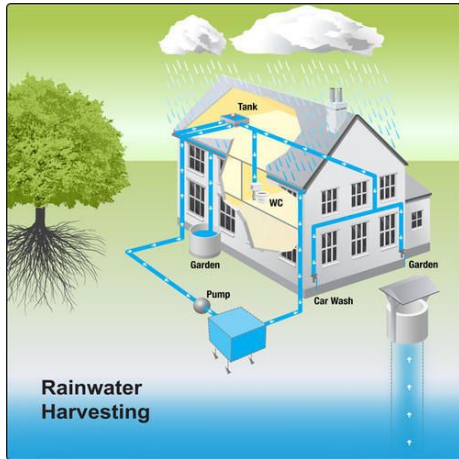

- WE IDENTIFIED A HUGE AMOUNT OF WATER WASTAGE THROUGH TAPS NOT BEING TURNED OFF OR LEAKING.
- WE ADDRESSED THIS WITH MAINTENANCE AND FACILITIES IN OUR MEETING.
- THE SCHOOL HAS TRIALLED THIS INITIATIVE IN THE NATIONAL SCHOOL, BUT HAS FOUND WATER WASTAGE TO BE HIGHER AS A RESULT
- AGREED OUTCOMES WERE, WE SHOULD EDUCATE STUDENTS ABOUT HOW TO USE WATER EFFECTIVELY
- WE HAVE PUT UP SIGNS ON ALL AREAS WHERE WATER IS DISPENSED.

RAINWATER HARVESTING AND STORAGE

PROS:

- IT RAINS MOST DAYS, SO WE CAN HARVEST A LOT OF FRESH WATER

CONS (IDENTIFIED BY MAINTENANCE AT OUR ECO MEETING):

- IT WOULD TAKE A BIG STRUCTURAL CHANGE TO BE ABLE TO USE THE WATER EFFECTIVELY
- IT BREEDS MOSQUITOS
- IF NOT DONE PROPERLY IT CAN CULTIVATE HARMFUL BACTERIA

AQUAPONICS

- DURING OUR ENRICHMENT WEEK ACTIVITIES, WE HAD EXTERNAL PEOPLE COME AND TEACH STUDENTS ABOUT AQUAPONICS.
- STUDENTS LEARNT HOW TO RECYCLE WATER AND USE FISH TO GROW A HEALTHY AMOUNT OF CROPS.
- THE AQUAPONICS SETUP NEEDS REVIEWING, BUT WE ARE PLANNING TO HAVE A FUNCTIONING HYDROPONICS GARDEN IN THE COMING YEARS.

DUAL FLUSHING TOILETS OR HIPPO BAGS

- FACILITIES AND MAINTENANCE ARE LOOKING INTO THE FEASIBILITY OF THIS AND WHETHER WE CAN TEST IT ON ONE OF OUR CAMPUS SITES.
